A different kind of chemistry

according to Regulation (EC) No. 1907/2006 (REACH) according to Regulation (EU) No. 2020/878

Trade name :	106351 - Fusidic acid, Ph. Eur.		
Revision date :	04/11/2022	Version (Revision) :	2.0.0 (1.0.0)
Print date :	15/11/2022		

P270Do not eat, drink or smoke when using this product.P301+P310IF SWALLOWED: Immediately call a POISON CENTER/doctor.P330Rinse mouth.

2.3 Other hazards

None

SECTION 3: Composition/information on ingredients

3.1 Substances

Substance name : Fusidic acid

EC No.: 230-256-0

REACH No. : N/D

CAS No.: 6990-06-3

Purity: 100 % [mass]

SECTION 4: First aid measures

4.1 Description of first aid measures

Remove contaminated, saturated clothing immediately. After contact with skin, wash immediately with plenty of water and soap. In case of skin reactions, consult a physician. After contact with the eyes, rinse with water with the eyelids open for a sufficient length of time, then consult an ophthalmologist immediately. If accidentally ingested, seek immediate medical attention, NEVER induce vomiting. Remove victim out of the danger area. In case of inhalation take the victim into open air; keep them warm and calm. If breathing is irregular or stops, perform artificial respiration.

4.2 Most important symptoms and effects, both acute and delayed

Accidental contact may result in serious respiratory difficulties, alteration of the central nervous system and in extreme cases, unconsciousness.

4.3 Indication of any immediate medical attention and special treatment needed

Request immediate medical attention. Never administer anything orally to persons who are unconscious. Do not induce vomiting. If the person vomits, clear the respiratory tract. Keep the person comfortable. Turn him/her over to the left side and stay there while waiting for medical care.

SECTION 5: Firefighting measures

The product does not present any particular risk in case of fire.

5.1 Extinguishing media

Suitable extinguishing media

Extinguisher powder or CO2. In case of more serious fires, also alcohol-resistant foam and water spray.

Unsuitable extinguishing media

Do not use a direct stream of water to extinguish. In the presence of electrical voltage, you cannot use water or foam as extinguishing media.

5.2 Special hazards arising from the substance or mixture

In case of fire may be liberated: Pyrolysis products, toxic

5.3 Advice for firefighters

Use water to cool tanks, cisterns, or containers close to the heat source or fire. Take wind direction into account.

Page : 2 / 9

A different kind of chemistry

(EN)

according to Regulation (EC) No. 1907/2006 (REACH) according to Regulation (EU) No. 2020/878

Trade name :	106351 - Fusidic acid, Ph. Eur.		
Revision date :	04/11/2022	Version (Revision) :	2.0.0 (1.0.0)
Print date :	15/11/2022		

Prevent the products used to fight the fire from going into drains, sewers, or waterways.

Special protective equipment for firefighters

According to the size of the fire, it may be necessary to use protective suits against the heat, individual breathing equipment, gloves, protective goggles or facemasks, and boots.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Clear spills immediately.

For non-emergency personnel

Wear a self-contained breathing apparatus and chemical protective clothing. Remove persons to safety.

For emergency responders

Eliminate possible ignition points and ventilate the area. No smoking. Avoid breathing fumes.For exposure control and individual protection measures, see section 8.

6.2 Environmental precautions

Do not allow to enter into surface water or drains. In case of gas escape or of entry into waterways, soil or drains, inform the responsible authorities. Retain contaminated washing water and dispose it.

6.3 Methods and material for containment and cleaning up

For containment

Collect in closed and suitable containers for disposal.

For cleaning up

The contaminated area should be cleaned up immediately with: Water Soak up inert absorbent and dispose as waste requiring special attention. Absorb with liquid-binding material (sand, diatomaceous earth, acid- or universal binding agents). Avoid dust formation.

6.4 Reference to other sections

Reference to other sections Disposal: see section 13 Personal protection equipment: see section 8

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Protective measures

When using do not eat, drink, smoke, sniff. Wear personal protection equipment (refer to

section 8).

Measures to prevent aerosol and dust generation

Use only in well-ventilated areas. Do not breathe gas/fumes/vapour/spray. Do not breathe dust.

Environmental precautions

Use appropriate container to avoid environmental contamination.

Specific requirements or handling rules

Handle and open container with care.

Advices on general occupational hygiene

Handle and open container with care.

A different kind of chemistry

(EN)

according to Regulation (EC) No. 1907/2006 (REACH) according to Regulation (EU) No. 2020/878

Trade name :	106351 - Fusidic acid, Ph. Eur.		
Revision date :	04/11/2022	Version (Revision) :	2.0.0 (1.0.0)
Print date :	15/11/2022		

7.2 Conditions for safe storage, including any incompatibilities

Technical measures and storage conditions

Storage temperature : +2 - +8°C Keep in a cool, well-ventilated place. Protect against UV-radiation/sunlight Humidity.

Requirements for storage rooms and vessels

Only use containers specifically approved for the substance/product.

Hints on joint storage

Store at least 3 metres apart from: Chemicals/products that react together readily **Storage class (TRGS 510):** 13

7.3 Specific end use(s)

None

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

The product does NOT contain substances with Professional Exposure Environmental Limit Values. The product does NOT contain substances with Biological Limit Values.

8.2 Exposure controls

Only wear fitting, comfortable and clean protective clothing.

Personal protection equipment

Eye/face protection

Eye glasses with side protection Face protection shield EN 166

Skin protection

Hand protection

Tested protective gloves must be worn EN ISO 374 The quality of the protective gloves resistant to chemicals must be chosen as a function of the specific working place concentration and quantity of hazardous substances.

Body protection

Full protection suit Wash contaminated clothing prior to re-use.

Respiratory protection

If technical exhaust or ventilation measures are not possible or insufficient, respiratory protection must be worn.

Flammable gases :	No data available.		
Explosive properties :	No data available.		
ther information			

9.2 Other information

None

SECTION 10: Stability and reactivity

10.1 Reactivity

The product does not present hazards by their reactivity.

Page : 5 / 9

A different kind of chemistry

according to Regulation (EC) No. 1907/2006 (REACH) according to Regulation (EU) No. 2020/878

Trade name :	106351 - Fusidic acid, Ph. Eur.

Print date :	15/11/2022		

10.2 Chemical stability

The product is chemically stable under recommended conditions of storage, use and temperature. Safe handling: see section 7

10.3 Possibility of hazardous reactions

The product does not present possibility of hazardous reactions.

10.4 Conditions to avoid

Avoid any improper handling.

10.5 Incompatible materials

Keep away from oxidising agents and from highly alkaline or acidic materials in order to prevent exothermic reactions.

10.6 Hazardous decomposition products

In case of fire may be liberated: Hazardous combustion products

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity

Acute oral toxicity	
Parameter :	LD50 (Fusidic acid; CAS No.: 6990-06-3)
Exposure route :	Oral
Species :	Rat
Effective dose :	1500 mg/kg
Corrosion	
Skin corrosion/irritatio	n
No information available.	
Serious eye damage/ey No information available.	
Respiratory or skin No information available.	sensitisation
CMR effects (carcin	ogenicity, mutagenicity and toxicity for reproduction)
Carcinogenicity	
No information available.	
Germ cell mutagenicity	,
No information available.	
Reproductive toxicity	
No information available.	
STOT-single exposu	Ire
No information available.	
STOT-repeated exp	osure
No information available.	
Aspiration hazard	
No information available.	
11.2 Information on othe	r hazards
No information available.

SECTION 12: Ecological information

12.1 Toxicity

No information available.

- 12.2 Persistence and degradability
 - No information available.
- **12.3 Bioaccumulative potential** No information available.
- **12.4 Mobility in soil** No information available.
- 12.5 Results of PBT and vPvB assessment
 - This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII.
- **12.6 Endocrine disrupting properties** No information available.
- 12.7 Other adverse effects

No information available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

The allocation of waste identity numbers/waste descriptions must be carried out according to the EEC, specific to the industry and process. Do not dump into sewers or waterways. Waste and empty containers must be handled and eliminated according to current, local/national legislation. Follow the provisions of Directive 2008/98/EC regarding waste management.

Product/Packaging disposal

Waste treatment options

Recycle according to official regulations. Evidence for disposal must be provided.

Appropriate disposal / Product

Dispose of waste according to applicable legislation.

Appropriate disposal / Package

Contaminated packages must be completely emptied and can be re-used following proper cleaning. Packing which cannot be properly cleaned must be disposed of. Handle contaminated packages in the same way as the substance itself.

SECTION 14: Transport information

14.1 UN number

No information available.

- **14.2 UN proper shipping name** No information available.
- **14.3 Transport hazard class(es)** No information available.
- 14.4 Packing group

No information available.

16.6 Additional information

None

The above information describes exclusively the safety requirements of the product and is based on our present-day knowledge. The information is intended to give you advice about the safe handling of the product named in this safety data sheet, for storage, processing, transport and disposal. The information cannot be transferred to other products. In the case of mixing the product with other products or in the case of processing, the information on this safety data sheet is not necessarily valid for the new made-up material.
