# SECTION 4: First aid measures

# 4.1 Description of first aid measures

Due to the composition and type of the substances present in the product, no particular warnings are necessary. **Following inhalation** 

# Take the victim into open air; keep them warm and calm. If breathing is irregular or stops, perform artificial respiration.

# In case of skin contact

Remove contaminated clothing.

# After eye contact

Remove contact lenses, if present and if it is easy to do. Wash eyes with plenty of clean and cool water for at least 10 minutes while pulling eyelids up, and seek medical assistance. Dont let the person to rub the affected eye.

## **Following ingestion**

Keep calm. NEVER induce vomiting.

# 4.2 Most important symptoms and effects, both acute and delayed

No known acute or delayed effects from exposure to the product.

# 4.3 Indication of any immediate medical attention and special treatment needed

In case of doubt or when symptoms of feeling unwell persist, get medical attention. Never administer anything orally to persons who are unconscious.

# SECTION 5: Firefighting measures

# 5.1 Extinguishing media

# Suitable extinguishing media

Extinguisher powder or CO2. In case of more serious fires, also alcohol-resistant foam and water spray.

## Unsuitable extinguishing media

Do not use a direct stream of water to extinguish. In the presence of electrical voltage, you cannot use water or foam as extinguishing media.

# 5.2 Special hazards arising from the substance or mixture

Fire can cause thick, black smoke. As a result of thermal decomposition, dangerous products can form: carbon monoxide, carbon dioxide. Exposure to combustion or decomposition products can be harmful to your health.

# 5.3 Advice for firefighters

Use water to cool tanks, cisterns, or containers close to the heat source or fire. Take wind direction into account.

## Special protective equipment for firefighters

According to the size of the fire, it may be necessary to use protective suits against the heat, individual breathing equipment, gloves, protective goggles or facemasks, and boots.

# SECTION 6: Accidental release measures

# 6.1 Personal precautions, protective equipment and emergency procedures

For exposure control and individual protection measures, see section 8.

# For non-emergency personnel

Follow established procedures.

**Revision date :** Print date :

Version (Revision) :

2.0.0 (1.0.0)

## For emergency responders

Follow established procedures.

# 6.2 Environmental precautions

Product not classified as hazardous for the environment, avoid spillage as much as possible.

# 6.3 Methods and material for containment and cleaning up

The contaminated area should be immediately cleaned with an appropriate de-contaminator. Pour the decontaminator on the remains in an opened container and let it act various days until no further reaction is produced.

#### For containment

Follow established procedures.

# For cleaning up

Follow established procedures.

#### 6.4 Reference to other sections

For exposure control and individual protection measures, see section 8. For later elimination of waste, follow the recommendations under section 13.

# SECTION 7: Handling and storage

# 7.1 Precautions for safe handling

The product does not require special handling measures, the following general measures are recommended: For personal protection, see section 8. Never use pressure to empty the containers. They are not pressure-resistant containers. In the application area, smoking, eating, and drinking must be prohibited. Follow legislation on occupational health and safety. Keep the product in containers made of a material identical to the original.

## **Protective measures**

Measures to prevent aerosol and dust generation

No special measures are necessary.

**Environmental precautions** 

No special measures are necessary.

Specific requirements or handling rules

No special measures are necessary.

### Advices on general occupational hygiene

No special measures are necessary.

# 7.2 Conditions for safe storage, including any incompatibilities

As general storage measures, sources of heat, radiation, electricity and contact with food should be avoided. Keep away from oxidising agents and from highly acidic or alkaline materials. Store according to local legislation. Observe indications on the label. The product is not affected by Directive 2012/18/EU (SEVESO III).

#### Technical measures and storage conditions

Storage temperature :

Keep in a cool, well-ventilated place.

# Requirements for storage rooms and vessels

Only use containers specifically approved for the substance/product.

# SECTION 10: Stability and reactivity

# 10.1 Reactivity

The product does not present hazards by their reactivity.

# 10.2 Chemical stability

Stable under the recommended handling and storage conditions (see section 7).

### 10.3 Possibility of hazardous reactions

The product does not present possibility of hazardous reactions.

**10.4 Conditions to avoid** Avoid any improper handling.

# 10.5 Incompatible materials

Keep away from oxidising agents and from highly alkaline or acidic materials in order to prevent exothermic reactions.

# 10.6 Hazardous decomposition products

No decomposition if used for the intended uses.
