### SECTION 1: Identification of the substance/mixture and of the company/ undertaking

### 1.1 Product identifier

Thimerosal, Ph. Eur., USP (112600) Thimerosal ; CAS No. : 54-64-8 ; EC No. : 200-210-4 ; Index No. : 080-004-00-7 ; REACH No. : N/D

# 1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses

For manufacturing, processing, laboratory or repacking use only.

#### Uses advised against

Uses other than those recommended.

# 1.3 Details of the supplier of the safety data sheet Supplier (manufacturer/importer/only representative/downstream user/distributor)

DC Fine Chemicals Ltd

Street: 88 Hill Top

Postal code/City: NW11 6DY London United Kingdom

Telephone : +44 (0)20 7586 6800

Telefax : +44 (0)20 7504 1701

Information contact : info@dcfinechemicals.com

### **1.4 Emergency telephone number**

(Only available during office hours; Monday-Friday; 08:00-18:00)

# SECTION 2: Hazards identification

# 2.1 Classification of the substance or mixture

### Classification according to Regulation (EC) No 1272/2008 [CLP]

Acute Tox. 2 ; H300 - Acute toxicity (oral) : Category 2 ; Fatal if swallowed.

Acute Tox. 1 ; H310 - Acute toxicity (dermal) : Category 1 ; Fatal in contact with skin.

Acute Tox. 2 ; H330 - Acute toxicity (inhalative) : Category 2 ; Fatal if inhaled.

STOT RE 2 ; H373 - STOT-repeated exposure : Category 2 ; May cause damage to organs through prolonged or repeated exposure.

Aquatic Acute 1; H400 - Hazardous to the aquatic environment : Acute 1; Very toxic to aquatic life. Aquatic Chronic 1; H410 - Hazardous to the aquatic environment : Chronic 1; Very toxic to aquatic life with long lasting effects.

2.2 Label elements

### Labelling according to Regulation (EC) No. 1272/2008 [CLP] Hazard pictograms

| P403+P233                           | Store in a well-ventilated place. Keep container tightly closed.   |
| P405                                | Store locked up.   |

### 2.3 Other hazards

This substance/mixture contains no components considered to be persistent, bioaccumulative and toxic (PBT) or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

### SECTION 3: Composition/information on ingredients

#### 3.1 Substances

Substance name : Thimerosal

Index No.: 080-004-00-7

EC No.: 200-210-4 REACH No.: N/D

CAS No.: 54-64-8

Purity: 100 % [mass]

### SECTION 4: First aid measures

Immediate medical attention is required. Delayed effects may occur after the exposure to the product.

### 4.1 Description of first aid measures

Remove contaminated, saturated clothing immediately. After contact with skin, wash immediately with plenty of water and soap. In case of skin reactions, consult a physician. After contact with the eyes, rinse with water with the eyelids open for a sufficient length of time, then consult an ophthalmologist immediately. If accidentally ingested, seek immediate medical attention, NEVER induce vomiting. Remove victim out of the danger area. In case of inhalation take the victim into open air; keep them warm and calm. If breathing is irregular or stops, perform artificial respiration.

### 4.2 Most important symptoms and effects, both acute and delayed

Accidental contact may result in serious respiratory difficulties, alteration of the central nervous system and in extreme cases, unconsciousness.

#### 4.3 Indication of any immediate medical attention and special treatment needed

Request immediate medical attention. Never administer anything orally to persons who are unconscious. Do not induce vomiting. If the person vomits, clear the respiratory tract. Keep the person comfortable. Turn him/her over to the left side and stay there while waiting for medical care.

### SECTION 5: Firefighting measures

The product does not present any particular risk in case of fire.

02/03/2023

### 5.1 Extinguishing media

### Suitable extinguishing media

Extinguisher powder or CO2. In case of more serious fires, also alcohol-resistant foam and water spray.

### Unsuitable extinguishing media

Do not use a direct stream of water to extinguish. In the presence of electrical voltage, you cannot use water or foam as extinguishing media.

# 5.2 Special hazards arising from the substance or mixture

In case of fire may be liberated: Pyrolysis products, toxic

## 5.3 Advice for firefighters

Use water to cool tanks, cisterns, or containers close to the heat source or fire. Take wind direction into account. Prevent the products used to fight the fire from going into drains, sewers, or waterways.

### Special protective equipment for firefighters

According to the size of the fire, it may be necessary to use protective suits against the heat, individual breathing equipment, gloves, protective goggles or facemasks, and boots.

### SECTION 6: Accidental release measures

# 6.1 Personal precautions, protective equipment and emergency procedures

Clear spills immediately.

# For non-emergency personnel

Wear a self-contained breathing apparatus and chemical protective clothing. Remove persons to safety.

#### For emergency responders

Eliminate possible ignition points and ventilate the area. No smoking. Avoid breathing fumes. For exposure control and individual protection measures, see section 8.

#### 6.2 Environmental precautions

Dangerous product for the environment. Do not allow to enter into surface water or drains. In case of gas escape or of entry into waterways, soil or drains, inform the responsible authorities. Retain contaminated washing water and dispose it.

### 6.3 Methods and material for containment and cleaning up

#### For containment

Collect in closed and suitable containers for disposal.

#### For cleaning up

The contaminated area should be cleaned up immediately with: Water Soak up inert absorbent and dispose as waste requiring special attention. Absorb with liquid-binding material (sand, diatomaceous earth, acid- or universal binding agents). Avoid dust formation.

### 6.4 Reference to other sections

Reference to other sections Disposal: see section 13 Personal protection equipment: see section 8

### SECTION 7: Handling and storage

### 7.1 Precautions for safe handling

The product does not present hazards by their reactivity.

### 10.2 Chemical stability

The product is chemically stable under recommended conditions of storage, use and temperature. Safe handling: see section 7

### **10.3 Possibility of hazardous reactions**

The product does not present possibility of hazardous reactions.

### **10.4 Conditions to avoid**

Avoid any improper handling.

### **10.5 Incompatible materials**

Keep away from oxidising agents and from highly alkaline or acidic materials in order to prevent exothermic reactions.

### **10.6 Hazardous decomposition products**

In case of fire may be liberated: Hazardous combustion products

### SECTION 11: Toxicological information

# 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

### Acute toxicity

| Acute oral toxicity       |   |
|---------------------------|---|
| Parameter :               | LD50 ( Thimerosal ; CAS No. : 54-64-8 ) |
| Exposure route :          | Oral                                    |
| Species :                 | Rat                                     |
| Effective dose :          | 75 mg/kg                                |
| Acute dermal toxicity     |   |
| Parameter :               | ATE ( Thimerosal ; CAS No. : 54-64-8 )  |
| Exposure route :          | Dermal                                  |
| Effective dose :          | 5 mg/kg                                 |
| Acute inhalation toxicity |   |
| Parameter :               | ATE (Thimerosal; CAS No.: 54-64-8)      |
| Exposure route :          | Inhalation (vapour)                     |
| Effective dose :          | 0.5 mg/l                                |
| Parameter :               | ATE (Thimerosal; CAS No.: 54-64-8)      |
| Exposure route :          | Inhalation (dust/mist)                  |
| Effective dose :          | 0.05 mg/l                               |
|                           |   |

No information available.

#### 12.7 Other adverse effects

No information available.

### SECTION 13: Disposal considerations

#### 13.1 Waste treatment methods

The allocation of waste identity numbers/waste descriptions must be carried out according to the EEC, specific to the industry and process. Do not dump into sewers or waterways. Waste and empty containers must be handled and eliminated according to current, local/national legislation. Follow the provisions of Directive 2008/98/EC regarding waste management.

### Product/Packaging disposal

Waste treatment options

Recycle according to official regulations. Evidence for disposal must be provided.

#### Appropriate disposal / Product

Dispose of waste according to applicable legislation.

### Appropriate disposal / Package

Non-contaminated packages must be recycled or disposed of. Contaminated packages must be completely emptied and can be re-used following proper cleaning. Packing which cannot be properly cleaned must be disposed of. Handle contaminated packages in the same way as the substance itself.

### **SECTION 14: Transport information**
