### SECTION 1: Identification of the substance/mixture and of the company/ undertaking

### 1.1 Product identifier

5-Sulfosalicylic acid dihydrate, ACS (115720) 5-Sulfosalicylic acid dihydrate ; CAS No. : 5965-83-3 ; EC No. : 202-555-6 ; REACH No. : N/D

1.2 Relevant identified uses of the substance or mixture and uses advised against

For manufacturing, processing, laboratory or repacking use only. Use only as intermediate under strictly controlled conditions.

Relevant identified uses Uses advised against Uses other than those recommended.

1.3 Details of the supplier of the safety data sheet Supplier (manufacturer/importer/only representative/downstream user/distributor)

DC Fine Chemicals Ltd

### Street: 88 Hill Top

Postal code/City: NW11 6DY London United Kingdom

**Telephone :** +44 (0)20 7586 6800

**Telefax :** +44 (0)20 7504 1701

Information contact : info@dcfinechemicals.com

### **1.4 Emergency telephone number**

(Only available during office hours; Monday-Friday; 08:00-18:00)

### SECTION 2: Hazards identification

### 2.1 Classification of the substance or mixture

### Classification according to Regulation (EC) No 1272/2008 [CLP]

Acute Tox. 4 ; H302 - Acute toxicity (oral) : Category 4 ; Harmful if swallowed. Skin Corr. 1B ; H314 - Skin corrosion/irritation : Category 1B ; Causes severe skin burns and eye damage.

Eye Irrit. 2 ; H319 - Serious eye damage/eye irritation : Category 2 ; Causes serious eye irritation.

### 2.2 Label elements

Labelling according to Regulation (EC) No. 1272/2008 [CLP]

Corrosion (GHS05) · Exclamation mark (GHS07) Signal word DANGER Hazard statements

| , 5  |
| Harmful if swallowed.  |
| Causes serious eye irritation.   |
| ments  |
| Wash thoroughly after handling.  |
| Wear protective gloves/protective clothing/eye protection/face protection.   |
| Immediately call a POISON CENTER/doctor.   |
| Specific treatment (see on this label).  |
| IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| IF ON SKIN: Wash with plenty of water.   |
|  |

### 2.3 Other hazards

None

### SECTION 3: Composition/information on ingredients

### 3.1 Substances

Substance name : 5-Sulfosalicylic acid dihydrate

EC No.: 202-555-6 REACH No.: N/D

CAS No.: 5965-83-3

Purity: 100 % [mass]

### SECTION 4: First aid measures

### 4.1 Description of first aid measures

Remove contaminated, saturated clothing immediately. After contact with skin, wash immediately with plenty of water and soap. In case of skin reactions, consult a physician. After contact with the eyes, rinse with water with the eyelids open for a sufficient length of time, then consult an ophthalmologist immediately. If accidentally ingested, seek immediate medical attention, NEVER induce vomiting. Remove victim out of the danger area. When in doubt or if symptoms are observed, get medical advice.

### 4.2 Most important symptoms and effects, both acute and delayed

Contact with eyes or skin can cause burns; ingestion or inhalation can cause internal damage, if this occurs immediate medical assistance is required. Never give anything by mouth to an unconscious person or a person with cramps.

### **4.3** Indication of any immediate medical attention and special treatment needed

Request immediate medical attention. Never administer anything orally to persons who are unconscious. Do not induce vomiting. If the person vomits, clear the respiratory tract. Cover the affected area with a dry sterile bandage. Protect the affected area from pressure or friction.

### SECTION 5: Firefighting measures

The product does not present any particular risk in case of fire.

### 5.1 Extinguishing media

### Suitable extinguishing media

Extinguisher powder or CO2. In case of more serious fires, also alcohol-resistant foam and water spray.

| Trade name :    | 115720 - 5-Sulfosalicylic acid dihydrate, ACS |                      |         |
|-----------------|---|----------------------|---------|
| Revision date : | 04/11/2022                                    | Version (Revision) : | 2.0.0 ( |
| Print date :    | 05/12/2022                                    |                      |         |

#### Unsuitable extinguishing media

Do not use a direct stream of water to extinguish. In the presence of electrical voltage, you cannot use water or foam as extinguishing media.

### 5.2 Special hazards arising from the substance or mixture

Special risks: Fire can cause thick, black smoke. As a result of thermal decomposition, dangerous products can form: carbon monoxide, carbon dioxide. Exposure to combustion or decomposition products can be harmful to your health.

### 5.3 Advice for firefighters

Use water to cool tanks, cisterns, or containers close to the heat source or fire. Take wind direction into account. Prevent the products used to fight the fire from going into drains, sewers, or waterways. Wear a self-contained breathing apparatus and chemical protective clothing. Do not inhale explosion and combustion gases.

#### 5.4 Additional information

Fire protection equipment: According to the size of the fire, it may be necessary to use protective suits against the heat, individual breathing equipment, gloves, protective goggles or facemasks, and boots.

### SECTION 6: Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

Clear spills immediately.

### For non-emergency personnel

Wear a self-contained breathing apparatus and chemical protective clothing. Remove persons to safety.

#### For emergency responders

Eliminate possible ignition points and ventilate the area. No smoking. Avoid breathing fumes. For exposure control and individual protection measures, see section 8.

### 6.2 Environmental precautions

Do not allow to enter into surface water or drains. In case of gas escape or of entry into waterways, soil or drains, inform the responsible authorities. Retain contaminated washing water and dispose it.

### 6.3 Methods and material for containment and cleaning up

### For containment

Collect in closed and suitable containers for disposal.

#### For cleaning up

The contaminated area should be cleaned up immediately with: Water Soak up inert absorbent and dispose as waste requiring special attention. Absorb with liquid-binding material (sand, diatomaceous earth, acid- or universal binding agents). Avoid dust formation.

#### 6.4 **Reference to other sections**

Reference to other sections Disposal: see section 13 Personal protection equipment: see section 8

### SECTION 7: Handling and storage

### 7.1 Precautions for safe handling Protective measures

Wear personal protection equipment

according to Regulation (EC) No. 1907/2006 (REACH) according to Regulation (EU) No. 2020/878

| Trade name :    | 115720 - 5-Sulfosalicylic acid dihydrate, ACS |                      |               |
|-----------------|---|----------------------|---------------|
| Revision date : | 04/11/2022                                    | Version (Revision) : | 2.0.0 (1.0.0) |
| Print date :    | 05/12/2022                                    |                      |               |

#### Aspiration hazard

No information available.

### 11.2 Information on other hazards

No information available.

### SECTION 12: Ecological information

### 12.1 Toxicity

No information available.

### 12.2 Persistence and degradability No information available.

#### 12.3 Bioaccumulative potential Parameter :

Log KOW ( 5-Sulfosalicylic acid dihydrate ; CAS No. : 5965-83-3 ) Partition coefficient n-octanol/water (log value) -0.91

### Value : 12.4 Mobility in soil

No information available.

### 12.5 Results of PBT and vPvB assessment

This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII.

### 12.6 Endocrine disrupting properties

No information available.

12.7 Other adverse effects

No information available.

### SECTION 13: Disposal considerations

### 13.1 Waste treatment methods

The allocation of waste identity numbers/waste descriptions must be carried out according to the EEC, specific to the industry and process. Do not dump into sewers or waterways. Waste and empty containers must be handled and eliminated according to current, local/national legislation. Follow the provisions of Directive 2008/98/EC regarding waste management. Follow the provisions of Directive 2008/98/EC regarding waste management.

### Product/Packaging disposal

### Waste treatment options

Recycle according to official regulations. Evidence for disposal must be provided.

#### Appropriate disposal / Product

Dispose of waste according to applicable legislation.

#### Appropriate disposal / Package

Non-contaminated packages must be recycled or disposed of. Contaminated packages must be completely emptied and can be re-used following proper cleaning. Packing which cannot be properly cleaned must be disposed of. Handle contaminated packages in the same way as the substance itself.

### **SECTION 14: Transport information**

### 14.1 UN number
