

# Specification

**Formula Hill:** C<sub>10</sub>H<sub>14</sub>O  
**Molar Mass:** 150,22 g/mol  
**CAS N°:** 89-83-8

Print Date: 22 March 2021

122860 Thymol, FCC

|                        | Specifications |
|------------------------|----------------|
| Purity                 | ≥ 99,9 %       |
| Appearance             |                |
| - Colorless or white   | conforms       |
| - Cryst. powder        | conforms       |
| Appearance of solution | conforms       |
| Acidity                | conforms       |
| Melting range          | 49 - 51 °C     |
| Residue on evaporation | ≤ 0,05 %       |

Conforms to: FCC specification
