

To provide the market with products suitable for consumption by the Muslim Community and that comply with the requirements of Halal, DC Fine Chemicals is committed to:

- Complying with the rules of Halal and updating specific documentation in accordance with Islamic Law and any applicable laws of the country of destination.
- Training of all personnel involved in the supply chain of products with Halal Guarantee, under the supervision of the internal Halal quality representative.
- Using Halal certified raw materials and correctly labeling the products according to Halal rules.
- Avoid selling products that contain prohibited elements (Haram) as Halal, and not to mix Halal products with products containing prohibited elements (Haram).
